## INDICE

### ATTIVITÀ DELLA SIMP

Verbale dell'Assemblea Generale dei Soci - Rimini, 13 settembre 2007	1
Verbale della Commissione Elettorale	7
Società Italiana di Mineralogia e Petrologia - Bilancio consuntivo al 31/12/2006	9
Relazione dei Revisori dei Conti sul bilancio 2006	11
Società Italiana di Mineralogia e Petrologia - Bilancio preventivo 2008	13
Conferimento della medaglia Plinius	14
Assegnazione premi 2007	16
TANELLI G.: Ricordo di Curzio Cipriani	20

### RIASSUNTI DI TESI DI DOTTORATO DI RICERCA

ANGI' G.: Tectono-metamorphic evolution of the crystalline basement in the Southern-Eastern Serre massif (Southern Calabria)	22
BERTOLINO S.: Syneruptive rheological parameters of Stromboli basalt and Arenal andesite: inference on their eruptive dynamics	30
BORASO R.: A geochemical-geological-geophysical approach to estimate U and Th abundances in Central Apennines crust, for testing geoneutrinos as a tool of deep Earth's interior investigation	39
BORGHINI G.: The spinel- to plagioclase-facies transition in mantle peridotites: natural and experimental constraints	42
CARBONE C.: Crystallochemical and minerogenetic study of oxide and oxy-hydroxides related to AMD (acid mine drainage) processes in Libiola mine (Sestri Levante)	45
DEL MORO S.: Pyrometamorphic processes at the interface between magma and products of the hydrothermal system in active volcanoes: evidence from the ejecta of Stromboli (Aeolian Islands, Italy)	51
FARINA F.: Building the Monte Capanne pluton (Elba Island, Italy) by multiple magma batches	58
FIAMENI S.: Petrology and U-Pb geochronology of the mafic-ultramafic sequence and associated quartz-feldspathic rocks from Niagara Icefalls (Northern Victoria Land, Antarctica)	65
GRANDE A.: Tectono-metamorphic evolution of crystalline basement cropping out in the Palizzi Marina area (Aspromonte, Calabria)	69
LAMPRONTI G.I.: Effect of citrate and glutamate ions on the precipitation of hydroxylapatite: synthesis and characterization through XRD, FTIR, SAXS, and ICP-AES	72
LANGONE A.: Hercynian low-pressure metamorphism: tectono-metamorphic evolution of the Mandatoriccio complex (Sila Massif - Calabria)	80
LIZIERO F.: Crystal chemistry and structure of non-metamict chevkinite-(Ce)	89
MELIS E.: Thermal stability and kinetic study of CaSO <sub>4</sub> -H <sub>2</sub> O system	91
MERLINI A.: Chromitite in ophiolite complexes: genesis and alteration	99

MUGNAIOLI E.: Development and use of electron diffraction in nanostructural mineralogy	108
NATALI C.: Petrogenesis and geodynamic significance of the volcanism of the Northern Ethiopian plateau	114
NEGRI E.: Investigation on dissolution process of the stones through the analyses of crystalline and amorphous phases	123
PISTOLESI M.: Historical analysis and stratigraphy of the post-XII Century pyroclastic activity at Cotopaxi volcano, Ecuador. implication for lahar hazard assessment	130
RICCIARDI P.: Raman spectroscopy for the non destructive characterization of ancient pottery, porcelains and mosaic glasses	138
SCARBOLO M.: Crystal chemistry and thermobarometry of the constituent phases of a suite of spinel peridotite xenoliths from Hannuoba (NE China)	146
SEGATA M.: Kinetic modelling of grain growth in peridotite system: an experimental approach	152
VICIDOMINI A.: Geological and minerochemical analysis of hydrothermal manifestations associated to the Aosta-Ranzola fault (Italian Western Alps)	154

### AGGIORNAMENTI

MARROCCHINO E.: Borsa SIMP 2006 per un soggiorno di studio all'estero: relazione sull'attività svolta	159
---	-----

### QUARTA GIORNATA RICERCA GIOVANI Genova, 28 febbraio 2008

Balduzzi I.: The search of submarine sediment sources suitable for Ligurian beach nourishment	165
Buzzi L.: Petrogenesis of Lower Permian andesitic magmatism from Southern Europe and geodynamic bearing on the post-Variscan collapse	167
Carbone C.: Mineralogy and chemistry of varicolored stream sediments from AMD processes in Libiola mine	169
Ciampalini A.: The Plio-Pleistocene of Vado Ligure: preliminary data	170
De Ferrari R.: The estimation of site effects using seismic noise: advantages, problems and limits	172
De Gaetano P.: Dispersion and degradation model for marine organic pollutions: an evaluation of sediment impact due to a fish farm	172
Dessy C.: Gravel beach: litoral evolution after a shore nourishment	174
Federico L.: First occurrence of syntectonic gold mineralization in transcrustal fault zones of the transantarctic mountains (Northern Victoria Land, Antarctica)	176
Ferraris F.: Quantitative geomorphology and Plio-Quaternary evolution of the NE Ligurian Alps, in the area between Genova and Savona	177
Gola G.: Critical parameters for the thermal analysis of a sedimentary basin	178
Isola E.: Blastesis-deformation relationships in the evolution of the northern Apennine serpentinite	180
Rellini I.: Late Quaternary loess of the Mount Beigua (Alpi Liguri): characteristics and paleoclimatic significance	181

Schiaffino C.F.: Application of Argus video monitoring system to evaluate the evolution of submerged bars in the embayed beaches of Barcelona (Catalunya, Spain)	182
Turino C. & Scafidi D.: Seismotectonic analysis of the complex fault system named “Garfagnana-Nord” (northern Tuscany)	184
Zunino A. & Benvenuto F.: A comparison between astronomical and magnetic image deconvolution targeting archaeological prospection	186

**1° CONGRESSO CONGIUNTO SIMP-AIC  
Sestri Levante, 7-12 settembre 2008**

Abate M., Barca D., Crisci G.M. & De Presbiteris D.: Historical glass from the Svevian Castle of Cosenza, Italy: chemical characterization by LA-ICP-MS and SEM-EDS methodologies	188
Adamo I., Bocchio R. & Prosperi L.: The gemmological characterization of peridot from Sardinia (Italy)	189
Adamo I., Gatta G.D., Rotiroti N., Diella V. & Pavese A.: A multi-methodological study of a gem-quality synthetic dark blue beryl	190
Agostino A., Cagliero S., Rahman Khan M.M., Truccato M. & Pastero L.: Growth of defective YBCO whiskers	191
Agrosi G., Capitani G.C., Pignatelli I. & Scandale E.: XRDT and TEM study of the striations of the tourmaline prism faces	192
Agrosi G., Capitani G.C., Scandale E. & Tempesta G.: Twin lamella characterization of 15R SiC by means of transmission electron microscopy	193
Alonso Mori R., Glatzel P., Paris E., Eeckhout S.G. & Giuli G.: Sulfur speciation in minerals and glasses by high resolution X-ray emission spectroscopy	194
Ardit M., Cruciani G. & Dondi M.: The monoclinic polymorph of Ba <sub>2</sub> MgSi <sub>2</sub> O <sub>7</sub> and its relationships to the melilite-type structure	195
Arletti R., Cartechini L., Gliozzo E., Rinaldi R., Imberti S., Kockelmann W. & Memmi I.: Neutron diffraction applications to the study of Roman army bronze artefact from Thamusida (Morocco)	196
Arletti R., Vandini M., Fiori C. & Vezzalini G.: Eleventh Century Byzantine mosaic tesserae from the Greek monasteries of Daphni and Hosios Loukas	197
Artini C., Costa G.A., Carnasciali M.M. & Masini R.: Intra rare earths perovskites: a stability field study and structural properties	198
Attolini G., Rossi F., Bosi M., Watts B.E. & Salviati G.: Growth and characterisation of 3C-SiC nanowires	199
Azzali E., Maescotti P., Carbone C., Lucchetti G. & Servida D.: Mineralogical and chemical variations in a sulphide waste-rock dump (Libiola mine, Liguria)	200
Azzaro V., De Rosa R., Donato P., Kyriakopoulos K., Lupo M. & Niceforo G.: Petrography and geochemistry of Trachilas and Fyriplaka (Milos island, Greece) products: a preliminary study	201
Bacchi A., Carcelli M. & Chiodo T.: Inclusion of volatile guests in organic-inorganic systems	202

Barca D., Davì M., De Rosa R. & Donato P.: The recent latites of Lipari and Vulcano: evidence for a common origin	203
Barca D., De Vuono E. & Trua T.: A combined SEM-EDX and LA-ICP-MS study of the Marsili seamount basic lavas, southern Tyrrhenian back-arc basin: preliminary results	204
Bardelli F., Benvenuti M., Costagliola P., Di Benedetto F., Lattanzi P., Meneghini C. & Romanelli M.: Arsenic uptake by natural calcite: a XAS study	205
Bartoli O., Meli S., Bergomi M., Magaraci D., Sassi R. & Liu D.-Y.: U-Pb SHRIMP II geochronology of the magmatic enclaves occurring in the Euganean Hills magmatic complex	206
Bartoli O., Meli S., Magaraci D. & Sassi R.: Evolution of the Euganean Hills magmatic district: a model based on magmatic enclaves	207
Benvenuti M., Giuntoli G., Naldini M., Cambi F., Corretti A., Ducci S., Chiarantini L. & Costagliola P.: The archaeometallurgical sites of Monte Strega and Magazzini at Elba island, Tuscany, Italy: the first steps of the <i>AITHALE</i> research project	208
Bernardini F., De Min A., Demarchi G., Princivalle F. & Montagnari Kokelj E.: Shaft-holed axes from Slovenia and North Western Croatia: an archaeometric study on artefacts manufactured from doleritic basalts	209
Berti G., De Marco F. & Nicoletta A.: On site X-ray diffraction: a new approach for analysis in loco of rocks	393
Bertoncello R., Dal Bianco B., Donà V., Nodari L., Salviulo G., Russo U. & Voltolina S.: The façade of Hungaria Hotel (Lido, Venice): systematic study of materials and decay mechanism	210
Biagioni C., Bonaccorsi E., Merlino S., Parodi G.C., Perchiazzi N. & Chevrier V.: “Anomalous rinkite”, a new mineral from agpaitic syenite of Iles de Los (Guinea)	211
Biagioni C., Orlandi P. & Pasero M.: Ankanigite from Monte Arsiccio mine (Apuan Alps, Tuscany): third world occurrence	212
Bigi A., Boanini E., Capuccini C. & Gazzano M.: Strontium-substituted hydroxyapatite nanocrystals	213
Bindi L.: Can clinopyroxene be a leading host of potassium in the Earth’s upper mantle? Evidences from crystal chemistry and thermodynamic modelling	214
Bindi L. & Menchetti S.: Going inside the polybasite structure: the role of silver in the <i>B</i> layer of the <i>-M2a2b2c</i> polytype	215
Bittarello E. & Aquilano D.: First finding of “biomimetic” aragonite polycrystalline structures	216
Bittarello E., Massaro F.R. & Aquilano D.: Quartz/witherite (BaCO <sub>3</sub> ) epitaxy. Experimental finding and theoretical implications on biomineralization	217
Bittarello E., Massaro F.R. & Aquilano D.: The epitaxial role of silica groups in promoting the silica biomorph formation. A first hypothesis	218
Boanini E.: Biomimetic materials: from nature’s structural materials to biomaterials	219
Boiocchi M. & Callegari A.: Aschamalmite (Pb <sub>6</sub> Bi <sub>2</sub> S <sub>9</sub> ): crystal structure refinement and ordering scheme for Pb and Bi atoms	220
Bombieri G., Meneghetti F., Artali R., Baranyai Z., Botta M. & Aime S.: A crystallographic study of new Cu(II) and In(III) complexes as contrast agents for MRI	221
Bonazzi P.: Crystal-chemical models to describe molecular structure of arsenic sulfides and their changes induced by exposure to light	222

Borghini G., Dapiaggi M., Maglia F. & Ferrari E.S.: Rietveld refinements of size-stabilized nano-crystalline tetragonal zirconia	223
Bosi F.: Mechanism of iron distribution in tourmaline	224
Bruno M.: The energies of reconstructed surfaces: an <i>ab initio</i> quantum-mechanical and thermodynamical study on NaCl, LiF and CaCO <sub>3</sub>	225
Bruno M., Prencipe M. & Rubbo M.: <i>AB initio</i> quantum-mechanical and thermodynamical study on NaCl, LiF and CaCO <sub>3</sub> reconstructed surfaces	226
Cabella R., Capelli C., García Porras A., Ramagli P. & Riccardi M.P.: Archaeometric study on local productions and Mediterranean imports of 13 <sup>th</sup> -16 <sup>th</sup> Century glazed tiles (azulejos) found in Liguria (NW Italy)	227
Cabella R., Capelli C., Waksman S.Y., Gayraud R.-P., Tilliard L., Treglia J.-C. & Vallauri L.: Archaeometric analyses of Islamic glazed ceramics from Fustat (Cairo, Egypt)	228
Cadoni M., Bloise A., Ferraris G. & Merlino S.: OD-character and twinning in the structure of a new synthetic titanosilicate: (Ba,Sr) <sub>4</sub> Ti <sub>6</sub> Si <sub>4</sub> O <sub>24</sub> ·H <sub>2</sub> O	229
Cadoni M., Cheah Y.L. & Ferraris G.: Synthesis and structural characterization of REE microporous single-layer silicates based on <i>n</i> -membered rings	230
Calestani D., Zha M., Zappettini A., Mosca R., Lazzarini L., Salviati G. & Zanotti L.: Growth and characterization of ZnO nanostructures by a self-catalytic CVD process	231
Calestani G.: Nanomorphogenesis of inorganic materials: from nanoparticles to nanostructured three-dimensional structures	232
Calzolaio M., Arzilli F. & Carroll M.R.: Study of the growth rate in decompression-induced crystallization experiments of alkali feldspars in the trachitic melt of the Phlegraean Fields (Napoli, Italy)	233
Cámara F., Guastoni A. & Nestola F.: As-Nb solid solution in β-fergusonite-(Y) from Mount Cervandone	234
Cámara F., Sokolova E., Hawthorne F.C. & Abdu Y.: The crystal structure and crystal chemistry of jinshajiangite, a group-II Ti disilicate mineral	235
Capitani G., Mellini M. & Stixrude L.: Total energies of different antigorite structure models: a DFT study	236
Capitelli F., Bertolasi V., Capozzi M.A.M., Cardellicchio C. & Naso F.: Aryl benzyl sulfoxides frameworks: halogen bonding and C-H...O interactions	237
Capitelli F., Della Ventura G., Bellatreccia F., Leonyuk N.I. & Koporulina V. Structure refinement of synthetic REEA <sub>12,07</sub> (B <sub>4</sub> O <sub>10</sub> )O <sub>0,6</sub> borates (with REE = Nd, Ce)	238
Carbone C., Marescotti P., Lucchetti G. & Chalmin E.: From unaltered pyrite mineralisations to Fe-oxidation crusts: a synchrotron micro-XRD, -XRF and -XANES analyses	239
Caruso G., Di Bella M., Sabatino G. & Triscari M.: Iron sulphide mineralization in the “Argille Scagliose” unit in Sicily	240
Causà M. & Barone V.: Computational modelling of layered materials for advanced applications	241
Cerrini S.: Invariant characterization and recognition of the point group symmetries using high order moments	242
Cesare B., Meli S., Satish-Kumar M. & Cruciani G.: Retrograde diffusion of hydrogen in biotite from metapelitic granulites of the Kerala khondalite belt (S India)	243

Cesari L., Agamennone M., Padova A., Andreini M., Turano P., del Conte R., Lalli D. & Mangani S.: Fragment-based discovery of S100B inhibitors: when structural information meets <i>in silico</i> predictions	244
Chelazzi L., Zanazzi P.F., Bonazzi P. & Bindi L.: High-pressure structural behavior of ingersonite, $\text{Ca}_3\text{Mn}^{2+}\text{Sb}^{5+}_4\text{O}_{14}$ : an <i>in situ</i> single-crystal X-ray study	245
Chiodo T., Bacchi A., Carcelli M. & Mezzadri F.: Porous systems based on imine substituted pyridine molecule: inclusion compounds, polymorphism and desolvation kinetics	246
Chiodo T., Bacchi A., Carcelli M., Mezzadri F. & Pranzo M.: Clathrating properties and desolvation processes in hybrid organic-inorganic wheel-and-axle complexes	247
Cianci M.: Cracking lobster shell protein structures and explaining the colour shift	248
Cicconi M.R., Giuli G., Paris E., Ertel-Ingrisch W. & Dingwell D.B.: Eu and Ce structural role in silicate glasses by XAS	249
Coltorti M.: Metasomatism in mantle xenoliths from intraplate and suprasubduction settings	250
Comodi P., Nazzareni S., Dubrovinsky L. & Merlini M.: High-pressure and high-temperature behaviour of bassanite	251
Comodi P., Nazzareni S., Dubrovinsky L. & Merlini M.: HP-HT phase stability of sulphates	252
Coppedè N., Toccoli T., Nardi M., Verucchi R. & Iannotta S.: Codeposition of hybrid nanostructured materials by supersonic beams for photovoltaic applications	253
Corti G., Piccardo G.B., Ranalli G. & Manetti P.: Modelling extension of the continental lithosphere and the development of passive margins: rheological modifications in the lithosphere and geodynamical effects	254
Croce G.: A mesoporous pattern created by nature	255
Croce G., Carniato F., Milanesio M., Viterbo D. & van Beek W.: <i>In situ</i> simultaneous Raman / high-resolution X-ray powder diffraction study of stearate-hydroxalcalite composite at non-ambient conditions	256
Damiani D. & Memmi Turbanti I.: The “Maestà” of Ambrogio Lorenzetti in St. Augustine’s church in Siena (Italy): painting materials characterisation and evaluation of the state of conservation	257
