info@ewla2026.it

Dear Laser Ablation Community, it's time to meet again!

The Geochemical Laboratory of the University of Milan, Italy, is thrilled to announce you that the 17th European Workshop on Laser Ablation (EWLA 2026) will take place in 2026 in Milan.

EWLA is a biennial international conference that has been held since 1994. It serves as a platform for scientists, engineers, technicians, and students to share and discuss the latest scientific results, novel concepts, and developments in laser ablation-based techniques.
